

Itch✓ Journal

Use your Itch✓ journal twice a day—once in the morning and once in the evening—to create a detailed record of your child’s symptoms and your observations. Be sure to take your journal to share with your doctor at upcoming appointments.

Follow the 4 simple steps in the example below.

Check it. Chart it. Discuss it.

Example entry

Step 1.

Date your entry, then choose an entry type and fill in the time:

✦ **Morning entry:** Your child’s itch behavior over the previous night (from bedtime until they woke up).

✦ **Evening entry:** Your child’s itch behavior throughout the day (from morning until bedtime).

✦ **Anytime entry:** Your child’s itch behavior outside of your morning entry and evening entry.

Step 2.

Select a score based on your child’s itch severity:

Based on observations or what your child told you about his/her itching, how severe were your child’s itch-related symptoms (rubbing, scratching, skin damage, sleep disturbances, or irritability)?

Step 3.

Note all observations that contributed to your answer

Step 4.

Create a more detailed entry to share with your doctor:

Add additional information, such as temperature, weather, clothing, and other symptoms your child is experiencing.
